

Praise for *Lessons of Labor*

“In this book, Julia Aziz masterfully distills out the wisdom of her own childbearing experiences and offers readers a treasure trove of deep and simple gems of inspiration for navigating the journey into and through motherhood. This is not *a way of doing* it, rather *a way of being present* to one’s self and the fleeting moments of family life. With reminders to slow down, experiment, let go and trust yourself... this book is essential reading for anyone who is a mother, has been mothered or is about to embark on the journey of motherhood.”

All the while knowing that new moments and new lessons just keep on coming!”

WHAT MOMS ARE SAYING:

“I think it is a story that fills a void in terms of what is out there for mothers. It is personal, honest, real, intelligent, thought-provoking, and frankly, I think it will be very influential.”

"I couldn't stop reading! I hadn't planned on finishing it tonight but I simply could not stop reading. So real, vulnerable, strong... all within a compelling story, one that you want to just devour. It is really, really good!!!"

“I’m 1/4 of the way through the book and I absolutely LOVE it. I’m crying nearly every page. I’m highlighting like a mad woman! This book is truly great. I wish I had had the courage to read it a month or two ago when I was in the midst of my postpartum crisis. It’s reassuring and inspiring.”
